

RAIL STRIKE PLAN

AUGUST 19, 2024

In response to potential railway strikes, **M-O** has developed an action plan to help our customers prepare in advance. Below, you'll find the current shipping ingate cut-off dates for units to arrive before any possible labor disruptions. Please ensure that pickup appointments are scheduled by 3:00 PM on the specified cut-off dates to allow enough time for your shipments to be ingated. Note that these dates may change as the situation evolves, and we will provide updates as needed.

Additionally, **M-O** will be placing an embargo on all LTL Temperature-Controlled and Hazardous Materials cargo across our network, effective August 15, 2024. Limited temperature-controlled truckload services to Western Canada will be available on a spot-quote basis. LTL services from Brampton and Montreal to Atlantic Canada will incur OTR Surcharge pricing and will also be subject to availability.
